BACONSTHORPE RECTORY,
HOLT,
NORFOLK.

Jan 1/15

Dear Sir

I beg to enclose Form for Rainfall in 1914. I regret that at the end of October I was ill and so my record of days for that month is incomplete - the total fall for the last week being taken on the 31st.

Yours truly
H Milnes Walker

and 2.III.16 ~~FW~~ 2 N

REGISTER OF RAINFALL IN 1913.

FORM A.
BRITISH RAINFALL.

8 JUN 1914

Kept at Brooke School Exc Wp.
in the County of Norfolk
by Royal Met. Soc.
George H. Johnson.

Lat. Long.
Time of Observation
Nearest Railway Station
Diameter of Rain Gauge in.
Height of top of Gauge above Ground ft. in.
" " " " Sea Level ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

FORM A. 1. METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1920.

Kept at Brundall.
in the County of Norfolk
by Rev A.W. Preston.

Lat. Long.
Time of Observation
Nearest Railway Station
Diameter of Funnel of Rain Gauge in.
Height of top of Gauge above Ground ft. in.
" " " " Sea Level ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in *"Rules for Rainfall Observers,"* sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, 62, Camden Square, London, N.W. 1.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

REGISTER OF RAINFALL IN 1914

FORM A. BRITISH RAINFALL.
4 - MAR 1915

Kept at Caston Rectory

in the County of Norfolk 4.

by Rev W H Partridge A W. Preston

Lat. Long.

Time of Observation

Nearest Railway Station

Diameter of Rain Gauge in.

Height of top of Gauge above Ground ft. in.

" " " " Sea Level ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

FORM A.
BRITISH RAINFALL.

REGISTER OF RAINFALL IN 1918

Kept at Cawston Rectory
in the County of Norfolk
by A. W. Preston, T. H. Marsh

Lat. Long.
Time of Observation
Nearest Railway Station
Diameter of Funnel of Rain Gauge in.
Height of top of Gauge above Ground ft. in.
" " " " Sea Level ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to THE DIRECTOR, British Rainfall Organization, 62, Camden Square, London, N.W. 1.

REGISTER OF RAINFALL IN 1916

FORM A.
BRITISH RAINFALL.
5 JAN 1917

Kept at the Warren, Cromer,
in the County of Norfolk.
by F. H. Barclay Esq

Lat. Long.
Time of Observation
Nearest Railway Station G. E. R
Diameter of Funnel of Rain Gauge 8 in.
Height of top of Gauge above Ground 1 ft. 8 in.
" " " " Sea Level 100.71 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

1 FEB 1921

Form A. 1. **METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.**

REGISTER OF RAINFALL IN 1920.

Kept at Downham Market

in the County of Norfolk

by T. H. Wenn

Lat. —— Long. ——

Time of Observation 8 am

Nearest Railway Station Downham

Diameter of Funnel of Rain Gauge 5¾ in.

Height of top of Gauge above Ground 1 ft. 5½ in.

" " " " Sea Level —— ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to The Superintendent, British Rainfall Organization, 62, Camden Square, London, N.W. 1.

Jan. 1, following. ·18

Records taken in Millimetres should not be entered on this form.

REGISTER OF RAINFALL IN 1916

FORM A.
BRITISH RAINFALL.

13 JAN 1917

Kept at East Rudham

in the County of Norfolk.

by Miss / F E Mayo

Lat. Long.

Time of Observation 9 a.m.

Nearest Railway Station East Rudham

Diameter of Funnel of Rain Gauge 5 in.

Height of top of Gauge above Ground 2 ft. in.

" " " " Sea Level 146 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

Jan. 1, following.

REGISTER OF RAINFALL IN 1914

FORM A. BRITISH RAINFALL.

JAN 1915

Kept at Fritton Rectory, Long Stratton

in the County of Norfolk

by Nobel E. Howes (Mrs)

Lat. Long.

Time of Observation 9 a.m

Nearest Railway Station Forncett

Diameter of Rain Gauge 5 in.

Height of top of Gauge above Ground 1 ft. in.

" " " " Sea Level 120 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1914

FORM A.
BRITISH RAINFALL.
4 - MAR 1915

Kept at Acle

in the County of Norfolk   .2.

by A W Preston

Lat. ______ Long. ______

Time of Observation ______

Nearest Railway Station ______

Diameter of Rain Gauge ______ in.

Height of top of Gauge above Ground ______ ft. ______ in.

" " " " Sea Level ______ ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1913

FORM A.
BRITISH RAINFALL.

1/9

22 JAN 1914

Kept at Geldeston Beccles

in the County of Norfolk 1

by E. J. Dawson

Lat. Long. ——

Time of Observation

Nearest Railway Station

Diameter of Rain Gauge in.

Height of top of Gauge above Ground ft. in.

" " " " Sea Level 38 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

Dear Sir,

Herewith please find Rainfall Report for 1919 as requested.

This report was not sent you before as owing to the fact that the Guage was out of action for the greater part of January and Febry of the year the record cannot be considered as accurate. I would also point out that no record is made on Sunday mornings of the Saturdays rainfall the reading on Monday mornings being of course for Saturday and Sunday.

Subject to the above remarks the list submitted is correct.

Yours faithfully,

L. Sydney Turner

The Secretary,
Rainfall Organisation

1403

JUN 20

Form A. 1. METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1919.

Kept at Hockham

in the County of Norfolk

by The Earl of Leicester

Lat. Long.

Time of Observation 9 am

Nearest Railway Station Hockham.

Diameter of Funnel of Rain Gauge in.

Height of top of Gauge above Ground 3 ft. - in.

" " " " Sea Level ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to The Superintendent, British Rainfall Organization, 62, Camden Square, London, N.W. 1.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

FORM A. 1. METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1919.

Kept at Kenninghall

in the County of Norfolk

by A. B. Smith

Lat. .... Long. ....
Time of Observation ....
Nearest Railway Station ....
Diameter of Funnel of Rain Gauge ....in.
Height of top of Gauge above Ground ....ft. ....in.
" " " " Sea Level ....ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, 62, Camden Square, London, N.W. 1.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

King's Lynn
Jan 12th 19

Dear Sir,

I have pleasure in enclosing particulars of the Rainfall for 1918 taken here.

I would point out that on Jan 7th, there was 2¾ to 3 ins of snow (avge depth on plain surface), but evidently with the blowing of the wind it had not got fully into the gauge, as it only registered 0·08 ins —

Yours faithfully
G G Burlingham

King's Lynn.

June 30 1921

Sir

My son has for the last few years sent you on my rainfall records – but as I came across the enclosed recently in sorting up papers I concluded that he had not sent the 1920 Record –

Probably I may now be too late but I send them herewith

My record was unfortunately vitiated by a hole worn by rust in the funnel discovered early in April – How long it had existed I am unable to say – to put the 1920 records right as far as possible I obtained from a friend the West Norfolk Manure Co's totals for Jan Feb & March * April – Which I give below my totals – The West Norfolk Manure Co's works are a mile or so away –

This year I am taking the record from a selected position on the roof of 81 High St – about 58 feet above ordnance datum – 38 feet above the ground –

Please say if I am in time to order the 1920 British Rainfall @ 8/6.

Yours truly
J. L. Burlingham

REGISTER OF RAINFALL IN 1914

FORM A.
BRITISH RAINFALL.

4 JAN

Kept at Great Massingham

in the County of Norfolk

by Walter Dich M.R.C.S.

Lat. 52°47' N Long. 0°40' E

Time of Observation 9 a.m.

Nearest Railway Station Massingham (¼ Mile N)

Diameter of Rain Gauge 5 in.

Height of top of Gauge above Ground 1 ft. 0 in.

" " " " Sea Level 269 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in *"Rules for Rainfall Observers,"* sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

Form A. 1. METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1920.

Kept at King's Lynn
in the County of Norfolk
by James Brown

Lat. Long.
Time of Observation
Nearest Railway Station
Diameter of Funnel of Rain Gauge in.
Height of top of Gauge above Ground ft. in.
" " " " Sea Level ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to The Superintendent, British Rainfall Organization, 62, Camden Square, London, N.W. 1.

No. of Rain Days.	3	5	8	–	2	12	8	17	5	13	13	13	

No rain recorded this Month. Foggy at times & Misty.

This part of Month fine & dry.

W. 8,000, X. '11.

Single

FORM A2.
BRITISH RAINFALL.
2 - JAN 1913

REGISTER OF RAINFALL IN 1912.

Kept at Mundesley-on-Sea

in the County of Norfolk 2

by Robert. D. Cross

RAIN GAUGE
Pattern Round
Diameter of top 8 in.
Height of top above Ground 1 ft. 2 in.
" " " Sea Level 65 ft.

Time of Observation 9 a.m.

Nearest Railway Station
Name Mundesley
Distance 1/2 Mile Direction W.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

Jan. 1, following.
